GREATEST ESCAPES

Escaping was never so comfortable.

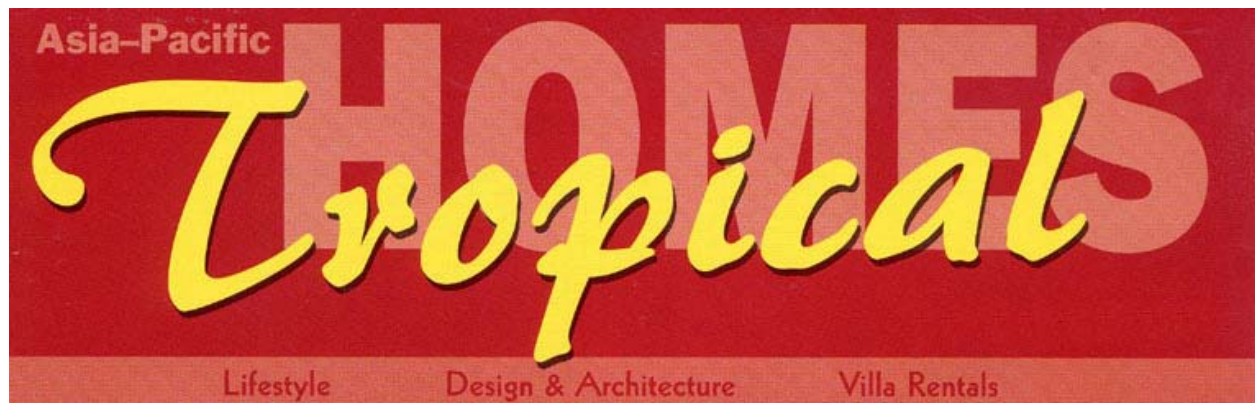

Bali - The Istana

Spread across 1.5 acres of clifftop on the Bukit — Bali's southwestern peninsula — the Istana is shaded by palm and frangipani, scented with oleander and lilac, and cooled by lotus ponds. There is a choice of two swimming pools, or there is Uluwatu Beach, renowned among surfers, just a 10 minute stroll away.

Five couples can cosy up within the 625sqm of living space that is resplendent with rich teakwood furnishings and Thai silk bedding. The open-air living room makes the best of the grand view, and is suffused with ever-changing light as the sun moves from dawn to dusk.

To escape from your guests, just retire to the master bedroom. Housed within its own guesthouse, it offers complete privacy and full facilities, including private kitchenette, expansive en suite bathroom and, of course, its own private pool. www.elitehavensbali.com (SIH)
